A custom mirror can make the room, at Davids Arts & Frames you have literally thousands of choices. The beauty of custom is that you are not limited to choosing standard size, and style. Who wants a mirror in their home that everyone else has?

Our clients mirror was created out of a Roma moulding. This particular mirror is six feet wide and ten feet tall the arch starts at eight feet. the mirror sat on the floor and was secured to the wall at an angle.

We have no fear when it comes to big jobs.

We constructed this mirror out of a Larson Juhl moulding, the Prado collection. This mirror was 44x80 and went in a downstairs living room.

We can also frame your plasma or lcd tv!
